ROHIT DARUNKAR

Frontend Developer | Full-Stack Engineer (MERN)

+91 9011538762 | rohitdarunkarwork@gmail.com | linkedin.com/in/rohit-darunkar | github.com/rohitdarunkar | portfolio-ten-hazel-78.vercel.app

PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience building and deploying scalable full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Proficient in JavaScript (ES6+), REST API development, JWT-based authentication systems, and responsive UI design with Tailwind CSS and Bootstrap. Demonstrated ability to architect reusable component-based frontends, integrate third-party services (Firebase, EmailJS, Chart.js), and deliver production-ready applications via GitHub and Vercel. Strong foundation in Data Structures and Algorithms (DSA) and Object-Oriented Programming (OOP).

TECHNICAL SKILLS

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design, Component Architecture, DOM Manipulation
Backend: Node.js, Express.js, REST API Development, JWT Authentication, CRUD Operations
Databases: MongoDB, MySQL, Firebase (Realtime DB & Auth)
Languages: JavaScript (ES6+), Python, R
Core Concepts: DSA, OOP, Problem Solving, UI/UX Principles, Performance Optimization
Android: Java, Kotlin, React Native, Android Studio, Activities, Intents, XML Layouts, REST API Integration, Firebase for Android, Google Play Deployment
Tools: Git, GitHub, Vercel, Chart.js, EmailJS, Fetch API, Android Studio

EDUCATION

B.Sc. in Computer Science — Wadia College, Pune University

PROJECTS

MERN Blogging Platform | React.js, Node.js, Express.js, MongoDB, JWT
github.com/rohitdarunkar/MERN-blogging-app | mern-blogging-app-ebon.vercel.app

- Built a production-ready full-stack blogging platform with JWT-based authentication, protected routes, and secure session management.
- Implemented full CRUD operations via RESTful APIs using Express.js and MongoDB, with role-based access control for post management.
- Designed a fully responsive, component-driven React UI with optimized API communication, clean code architecture, and cross-device compatibility.

Finance Tracker Dashboard | React.js, Firebase, Chart.js
github.com/rohitdarunkar/finance-tracker | finance-tracker-dusky-two.vercel.app

- Developed an analytics-driven finance dashboard with real-time expense tracking, budget management, and category-based reporting.
- Integrated Chart.js for interactive data visualizations (bar, line, pie charts) to surface spending patterns and financial trends.
- Used Firebase for real-time database sync and authentication; built a reusable React component library with a focus on clean UI/UX.

Social Media Application | React.js, Node.js, Express.js, MongoDB
github.com/rohitdarunkar/social-media-app | social-media-app-eight-delta.vercel.app

- Created a responsive social media app with full authentication flow — registration, login, protected routes, and persistent sessions.
- Engineered a scalable, modular frontend with dynamic content rendering and reusable React components for consistent UI across views.
- Built and integrated RESTful APIs with Node.js and Express.js connected to MongoDB for user management and data persistence.
